Dear SDS:

This is the best time to begin your campaign to be among the league of best-performing campus journalists and school paper advisers. And your effort to catapult your schools into that pedestal entails investment in proper training.

Our trainers who have decades of experience in journalism and communication both in the academe and the field would like to extend support in augmenting your campus journalism training program. We are inviting your teachers and students to experience a national level training and competition this summer.

Join the **21st Word Cup Philippines National Journalism Conference and Ambassadors Award**. We hope that this event can help your schools by learning with us. Our partners are the same professional trainers who have done so much for many of the Top 7 performing regions in the country. We would like to share with you the same training method that we have shared with them.

We fervently pray that you, your teachers and students can join us through a memorandum or advisory on this event. Kindly refer to the attached file which contains the **letter request/invitation**.

With warm regards,

EUGENIO SONNY O. CALAPIT, EnP, Ed.D.

Dear:

Greetings!

Life-long skills are proving to be more important in the learning recovery of our youth. The best way to learn it however may also be outside the four corners of our classroom. Skills, after all, take practice to master. In the application of our language learning, we go to campus journalism for instance. And what better method to learn it but through the **21st Word Cup National Journalism Conference and Ambassadors Award** on 4-5 May 2024 at Tagaytay City.

We believe that our authentic journalism workshops are effective ways to impart life-long learning in journalism. For instance, months before the pandemic in July, we provided 270 Word Cup Masterclass participants an actual news coverage by having them work side by side with media professionals in the live coverage of **seven events**, namely: the *Asian Obstacle Course Racing Championships* back to back with the *ASEAN Para Obstacle Course Racing Championships* at the Quirino Grandstand and the *National Milo Marathon* at the Mall of Asia; the *Pencak Silat demonstration* at Bayview Park Hotel; the press briefings on: *Toward a Livable City: Balancing Environment and Development in the Metropolis* held in Las Pinas-Paranaque Critical Habitat and Ecotourism Area; *The Philippine Cinema's Centennial: Quo Vadis?* and the *Philippines Global Initiative to Decongest Cities* in GSIS.

Thus in August, Manila Bulletin published Word Cup participants' coverage of the Las Pinas Paranaque Critical Habitat and Ecotourism Area. Months prior, on May 30 the newspaper also featured the Boracay rehabilitation. These were your students and teachers embracing life-long learning as a method to reinforce their classroom learning.

In these Masterclasses, in-depth training was delivered by the practitioners themselves. In addition to learning by doing, we ensure that we give feedback to the work of our participants through the insightful critiquing of their outputs. To push them to do more, we bundled a national level contest or learning evaluation as incentive to the activity. As learning leaders, we hope that you too have recognized the uniqueness of our method by allowing your students and teachers to experience the only authentic journalism training workshop in the Philippines and Asia **by issuing a Memorandum or an Advisory cascading the event** chargeable to their school MOOE or Local School Board fund subject to the usual accounting rules and regulations.

We look forward to your favorable accommodation of this request. For further inquiries, I may be reached through [edcalibre.intl@gmail.com](mailto:edcalibre.intl@gmail.com) or at mobile number 0915.960.7268. You can know more about us on our Facebook account Word Cup Associated Editors.

Thank you and more power!

**EUGENIO SONNY O. CALAPIT, Ed.D., EnP**

# 21st Word Cup National Journalism Conference and Ambassadors Awards

### BE HUMANS, NOT PLASTIC

**By GREGG DEGEN, PHILADELPHIA**

Most people who visit Boracay are looking for a relaxing vacation. They want to enjoy the sun, sand, and sea. But they don't want to see the island covered in plastic. Boracay is a beautiful island, but it's also a beautiful mess. The island is covered in plastic, and it's a problem. The island is covered in plastic, and it's a problem. The island is covered in plastic, and it's a problem.

### CHALLENGING ENHANCEMENT

**By GREGG DEGEN, PHILADELPHIA**

Challenging enhancement is a concept that is often used in the context of sustainable development. It refers to the idea of using resources in a way that meets the needs of the present without compromising the ability of future generations to meet their own needs. This is a goal that is often difficult to achieve, but it is one that is worth striving for.

### SUSTAINING PARADISE

**By GREGG DEGEN, PHILADELPHIA**

Sustaining paradise is a concept that is often used in the context of sustainable development. It refers to the idea of using resources in a way that meets the needs of the present without compromising the ability of future generations to meet their own needs. This is a goal that is often difficult to achieve, but it is one that is worth striving for.

### DESERVING BORACAY

**By GREGG DEGEN, PHILADELPHIA**

Deserving Boracay is a concept that is often used in the context of sustainable development. It refers to the idea of using resources in a way that meets the needs of the present without compromising the ability of future generations to meet their own needs. This is a goal that is often difficult to achieve, but it is one that is worth striving for.

### Saving a critical wetland to promote ecotourism

# HAVEN IN THE M-ETRO

Wetlands are critical ecosystems that provide a wide range of services, from water filtration to carbon sequestration. In the Los Angeles basin, the San Gabriel Wetlands are a vital part of the region's natural heritage. The Los Angeles River, which flows through the wetlands, is a major source of water for the city. The wetlands also provide a habitat for a variety of birds, including the California Gull and the Western Gull. The Los Angeles River is a major source of water for the city. The wetlands also provide a habitat for a variety of birds, including the California Gull and the Western Gull.
