The NQESH Exam Phases

The NQESH is divided into 3 Phases:

1. Pre-NQESH
2. NQESH
3. Post-NQESH

The phases apply not only to the actual NQESH Exam but also to the Mock Exams that will be conducted. They all will undergo all the phases.

Phase 1: The Pre-NQESH

The Pre-NQESH phase is the **period that coincides before the NQESH Exam day** or any Mock Exam. During the Pre-NQESH phase, the examinees must do the following:

1. **Select and check the device to use for the exam.** During this step, the examinee must ensure that the device to be meets the required specifications.
2. **Install the Safe Exam Browser (SEB).** The SEB is the application that will provide the locked-down feature of the HR Avatar platform. It uses a special configuration customized to the NQESH requirements. The installer for this will be provided at various stage of the exam but the examinee needs to only ensure that he/she has installed the most latest version.
3. **(Optional) Uninstall Prohibited Applications.** The applications that are deemed prohibited during the examination has something to deal with device remote control and outside communication during the examination. These prohibited applications are in nature either productivity tool or collaborative tool. However, during the examination the test-taker must solely rely on himself or herself, thus, applications that provide device remote control and communication are not allowed.

Phase 2: NQESH

The NQESH phase is **actual NQESH Exam day or any Mock Exam day** and all other activities that fall within that day. During the NQESH phase, the examinees must do the following:

1. **Test Credentials Check (Exam Link Availability).** The examination link is sent days ahead of the actual exam. Hence, on the day of test or even earlier, the examinee can check if the test link is available in the email that they submit during the application process.
2. **Launching of the exam in SEB.** If prompted by the Room Examiner, from the email where the examination link is sent, the examinee should click on the test link or copy and paste it in any web browser. A page that shows the button for launching the test in SEB will appear.
3. **Test Authorization (by the Room Examiner).** After the exam has been launched in the SEB, the Room Examiner needs to input their proctor code to authorize the examinee. Once authorized, upon instruction from the Room Examiner, only then the examinee can proceed in starting the test.
4. **Actual Test-taking.** Once instructed to start the test, the examinee may proceed with answering the test.

Phase 3: Post-NQESH

The Post-NQESH phase is **the period and activity that coincide immediately after completing the NQESH Exam.** During the Post-NQESH phase, the examinees must do the following:

1. **Upload of Exam (If completed Offline).** The examinee completed the exam while offline, he/she must see to it that he uploads the exam responses. The uploading of the answers is automatically done by the system provide there is a stable internet connection. The process is similar when the test was started. The only difference is that the system will identify if there are responses that were not uploaded.
2. **Take the Post-test Survey.** Whether completed online or offline, the examinee must see to it that they answer the post-test survey. The survey will help identify areas that need to be improved on the next examination.
3. **Check for the email about Exam Completion Confirmation.** Immediately after completing the exam, the system sends an email confirming that the exam has been successfully completed. This provides an assurance that the system has received the exam responses.

People Involved: Their Roles and Access Level

There are two groups of people involved:

1. Qualified Examinees
2. Administration Personnel
 - A. Room Examiner
 - B. Roving IT
 - C. Lead Roving IT
 - D. Chief Examiner

Website: <https://hravatar.com/>

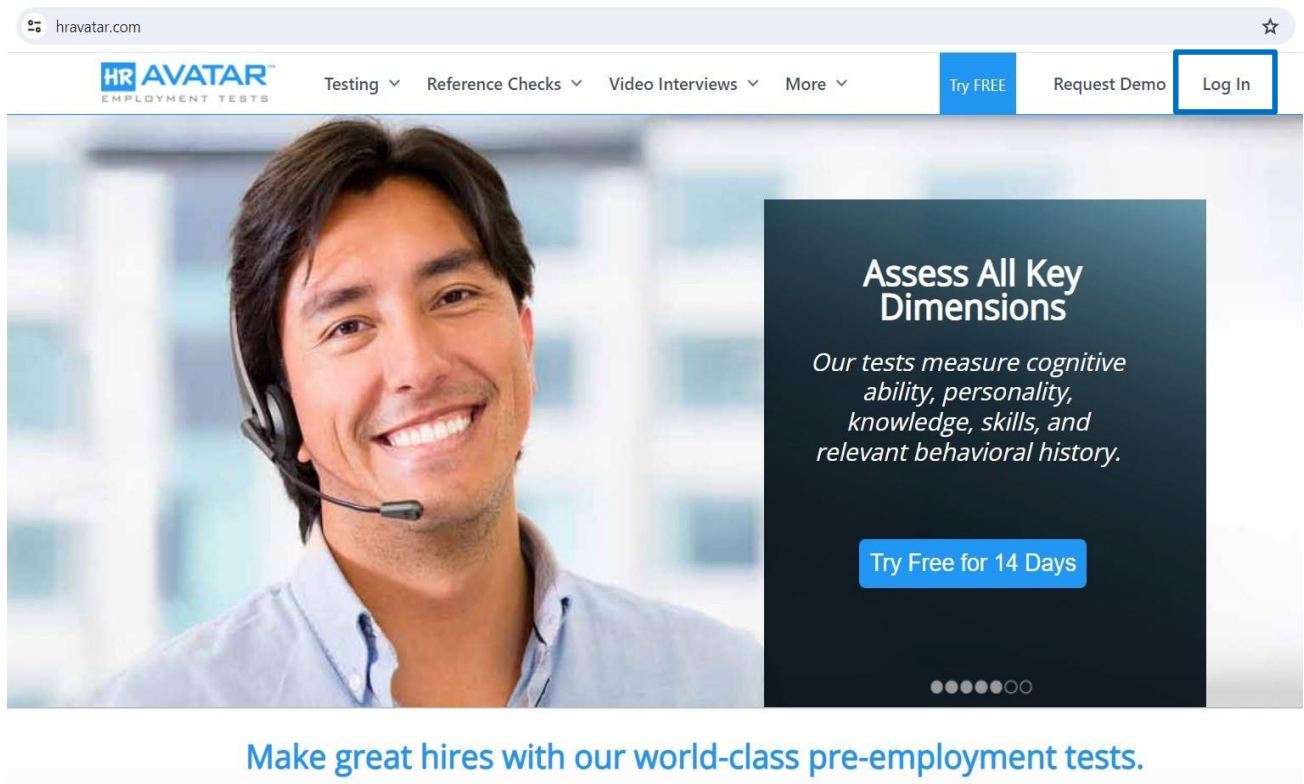

The HR Avatar system has been customized to meet the following conditions in the conduct of the Online Supervised NQESH:

1. Examinee & Proctor (Room Examiner) to be physically present in the same room during the exam.
2. Use a Locked-down Browser (Safe Exam Browser) to deliver the exam.

Getting Started with HR Avatar

To be able to login to the HR Avatar platform, NQESH Administration personnel must be issued with a valid **user access**. Regardless of the role, everyone needs to have a valid logon to participate in the NQESH except for the examinees who will only need a valid examination link and an installed Safe Exam Browser (SEB).

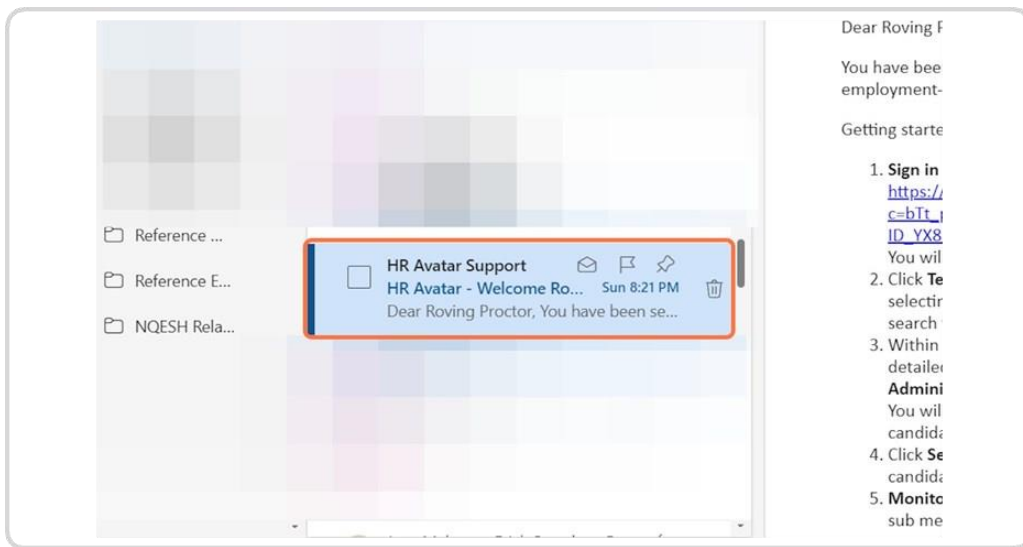

The request for creation of access must be coursed through the provider—ASEA Metrics. The process for the request for access creation will be outlined at the latter part of the manual. Once a user has been issued an access, the user may go to the www.hravatar.com to login.

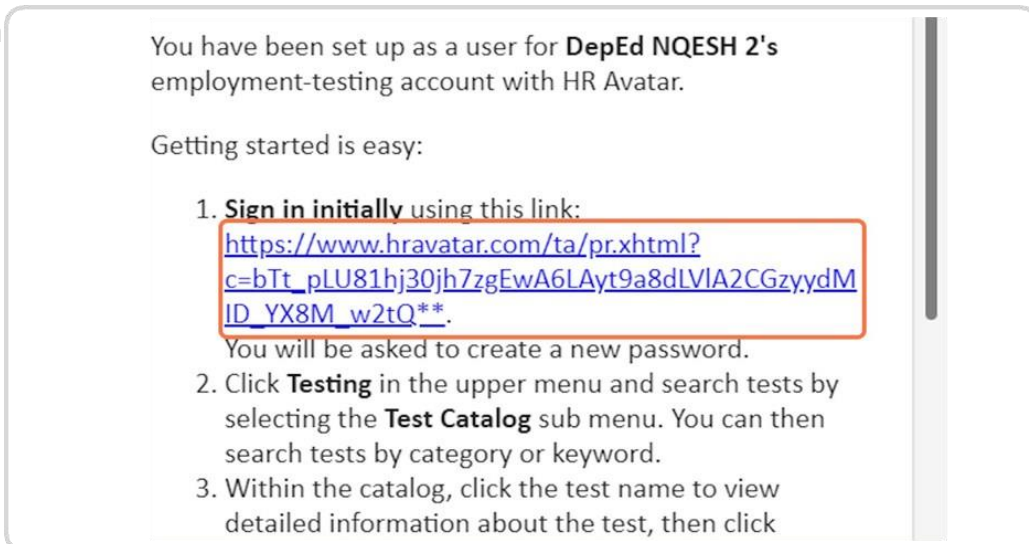

Securing HR Avatar Access

HR Avatar has various levels of access depending on the roles assigned to a selected user. Regardless of the roles, each one should have a valid access. There is a uniform process to secure it. Once an access is created, a welcome email and temporary sign-in link is sent to the nominated email of the user. To safely secure the access, it includes setting-up a password. 2. The Proctor Code to be used in the NQESH Exam will be distributed to Room Examiner on the day of the exam.

Unlocking the Safe Exam Browser (SEB)

During the examination, the examinee may encounter the SEB Lock which is shown in the image below. This usually happens when the examinee tries to “Switch User”, connects to another screen/display and when the screen goes on idle or sleep mode. When the SEB Lock screen appears the system requires the SEB password either to unlock the SEB or in case of multiple SEB lock, terminate the SEB and stops the examinee from continuing or finishing the exam.

The SEB password is entrusted only to the Chief Examiner. It is also changed every test event which means the SEB password in the mock exams will be different from the actual exam. The SEB password will only be made know to the Chief Examiner on the day of the exam.

To unlock the SEB, the Chief Examiner enters the SEB password and clicks “Unlock” button.

Instructions on Setting-up and Installing Safe Exam Browser (SEB)

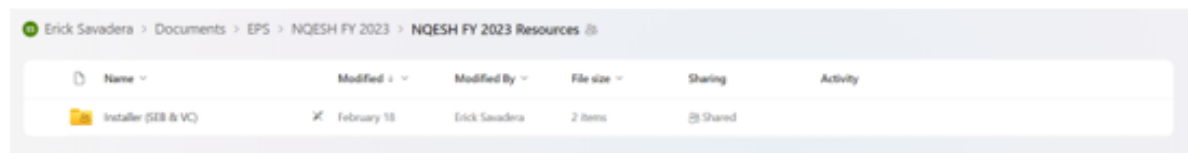

Instruction: Read first the entire installation guide before proceeding to the installation.

Step 1: Select the laptop where to Install the SEB to be used for NQESH.

Choosing the right device can make or break your experience during the NQESH. To help you identify the right laptop, below is the device specification.

Specifics	Requirements
Device <i>with functional and visible keyboard keys</i>	Laptop (with battery life of 3-4 hours when fully charged)
Operating System (OS)	Windows 10 or higher
Processor	Intel Core i5 or Ryzen
RAM	At least 8 GB
Available Disk Space	(For SEB Installation) At least 5 GB or higher (either HDD/SSD)
	(During NQESH) At least 1 GB or higher (either HDD/SSD)
User Access Rights	Can install (SEB) and uninstall prohibited application
Web Browser Installed	Any updated web browser (Google Chrome, Edge, Firefox, Safari, Opera, Brave)

Step 2: Download the applications to be installed. To do this, go to <http://tiny.cc/NQESHFY2023Resources> and select the “Installer (SEB and VC)” folder and download the installers.

Download the guide here: <https://aseametrics.com/nqesh-resources/>

Visual Studio 2015, 2017, 2019, and 2022

This table lists the latest supported English (en-US) Microsoft Visual C++ Redistributable packages for Visual Studio 2015, 2017, 2019, and 2022. The latest supported version has the most recently implemented C++ features, security, reliability, and performance improvements. It also includes the latest C++ standard language and library standards conformance updates. We recommend that you install this version for all applications created using Visual Studio 2015, 2017, 2019, or 2022.

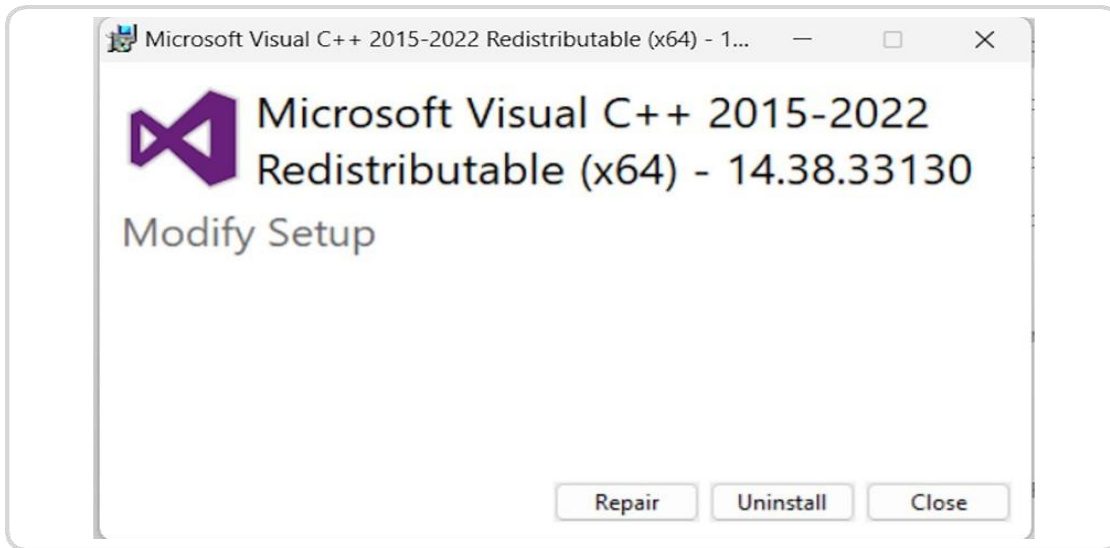

Unlike older versions of Visual Studio, which have infrequent redistrib updates, the version number isn't listed in the following table for Visual Studio 2015-2022 because the redistrib is updated frequently. To find the version number of the latest redistrib, download the redistrib you're interested in using one of the following links. Then, look at its properties using Windows File Explorer. In the Details pane, the File version contains the version of the redistrib.

Architecture	Link	Notes
ARM64	https://aka.ms/vs/17/release/vc_redist.arm64.exe	Permalink for latest supported ARM64 version

Step 6: Examinee reads the notice about "Local Saving is Enabled".

Local Saving is Enabled

This test is configured to save your responses to your local computer or device if your Internet connection is interrupted during the test.

If your Internet connection remains connected throughout the test, your responses will be transmitted to our server normally and no action on your part will be needed.

If your Internet connection is broken during the assessment, you will be informed that your responses are being saved locally. You can continue to answer questions while the Internet connection is broken.

If your broken connection is re-established BEFORE the test is complete, your responses will be transmitted to our server normally and no further action will be needed.

However, if your broken connection is NOT RE-ESTABLISHED by the time you complete the test, the following will happen:

1. You will be informed that your responses have not been fully transmitted to the server and you must relaunch the test once your connection is re-established.
2. Your responses will remain saved to your computer or device (even if you close your web browser or re-boot your computer). The responses are saved to your browser cache, so do not clear your cache.
3. Once you successfully reconnect to the Internet, you must relaunch the test using the same link you used before (in the same web browser and on the same computer). Welcome

Welcome to the Online NQESH Mock Exam.

The objective of the mock exam is primarily to make you feel comfortable, at ease, and familiar with the platform that will be used for the Online National Qualifying Examinations for School Heads (NQESH).

This is the first of the 2 mock exams that you will go through. It may seem challenging at first and even intimidating because it is a new approach to the NQESH that you're familiar with which is the paper and pen test if it's not your first time.

Your goal for this round of mock exam is to test your device and internet connectivity. Another goal, which you have gone through already, is launching the test properly in the Safe Exam Browser (SEB).

Good luck!

NQESH Test Platform Buttons

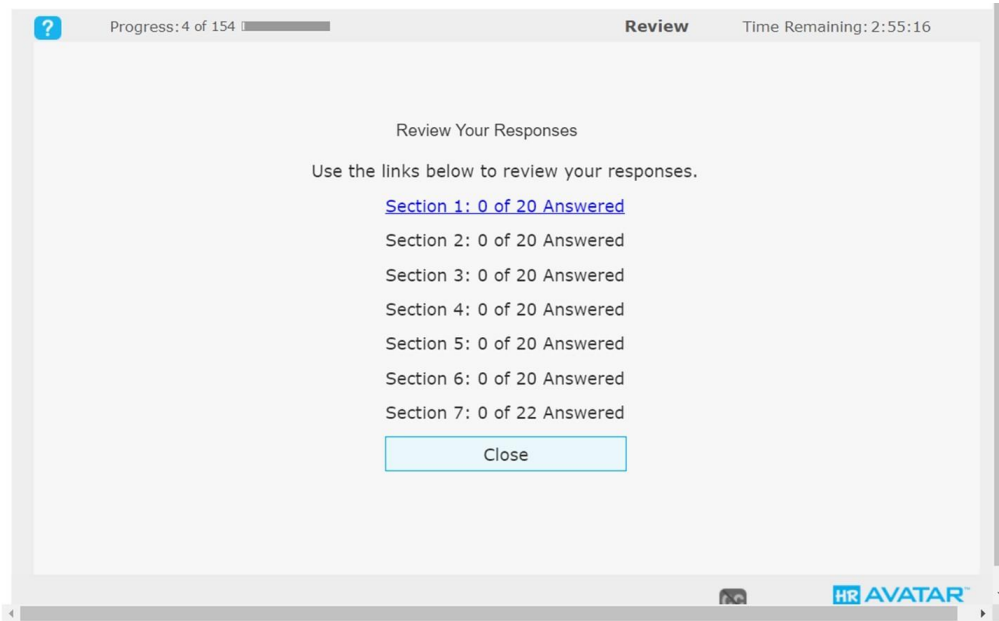

The NQESH test platform which is HR Avatar has incorporated features that will allow the test taking experience smooth and intuitive to use. To be better guided with the test interface features, below are the descriptions of the buttons and features that you will see within the testing platform.

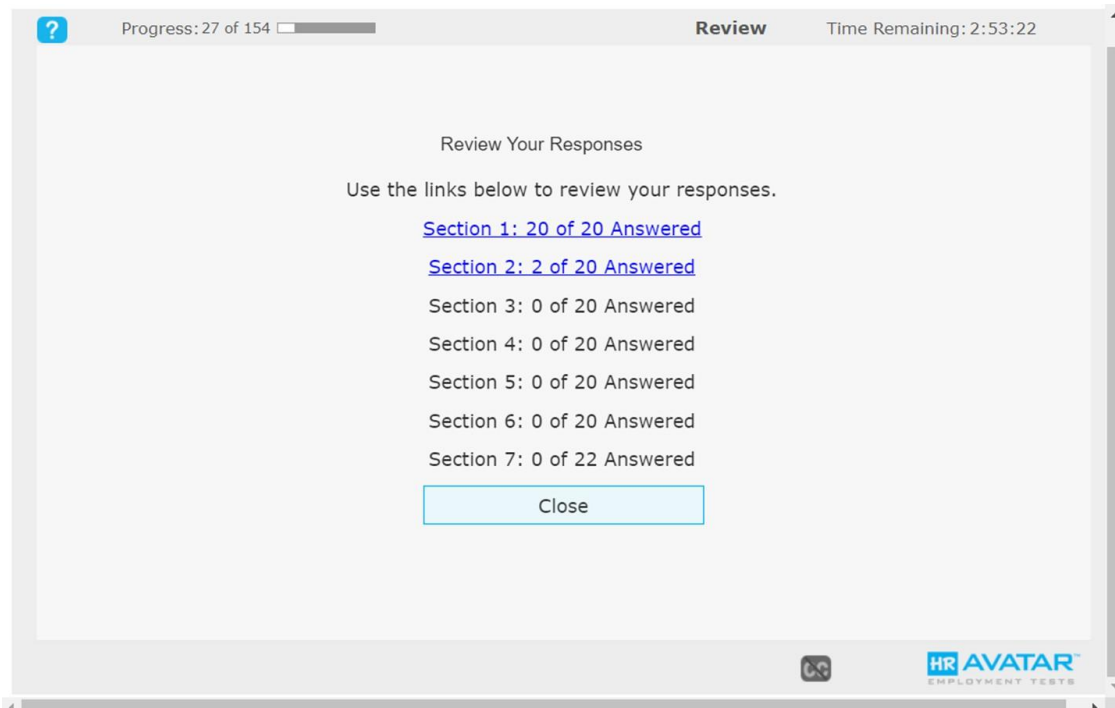

Number	Feature	Function
1	Progress Bar	This feature indicates the number of screens the examinee has been exposed. It is not the total number of items in the test.
2	Continue button / Record Answer Button	The Continue button allows the test taker to move forward with the test screen while most of the time the “Record Answer” is shown. This allows the examinee to go on to the next question.
3	Back button	This allows the examinee to move back a test screen or go back to another question.
4	Review Button	The Review button provides the examinee of the overview of the test progress. It shows the sections and the number of items that has been answered in each section.
5	Timer	The timer shows the remaining time the examinee has to complete the exam.

The Review Page

The Review page provides the examinee of the overview of the test progress. It shows the sections and the number of items that has been answered in each section. It also allows the test taker to go back to sections that he/she has been to.

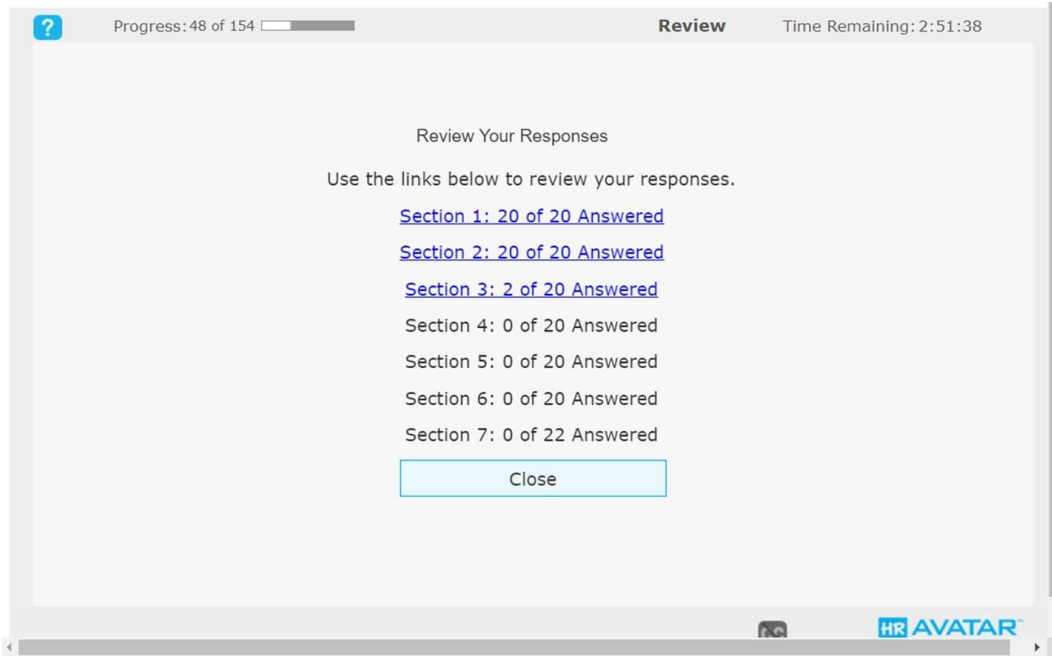

When the examinee reached at least the first question of a section, that section becomes “clickable” - [blue text and underlined](#) - in the Review page.

The Previous/Next Section Button

When a section in the Review Page becomes “clickable” - [blue text and underlined](#), it gives the them a chance to go back to the start of that section in case they want to review their responses.

When going back to a particular section, the “Previous Section” and “Next Section” appears below the continue button for the selected section. In the case of the example above, when the examinee goes back to “Section 2”, the “Next Section” is shown because the next section which is Section 3 has been started.
